INTERNSHIP

- **Blockchain Developer Intern** *Sept 2023 - Dec 2023*
3.0 University
 - Actively involved in smart contract development, DApp creation, and blockchain technology, specializing in Ethereum and Solidity.
 - Active collaboration with a diverse team, conducting code reviews and proposing innovative solutions to technical challenges.
- **Web Developer Intern** *July 2022 to August 2022*
Let's Grow More
 - Developed and maintained web applications using HTML, CSS, and JavaScript.
 - Collaborated with the team to implement new features and improve existing functionality.

PROJECTS

- **Personal Portfolio** (Nov, 2023) :- Developed a portfolio showcasing advanced proficiency in web development technologies, including ReactJS, JavaScript ES6, HTML, and CSS. The portfolio reflects my dedication to user-centric design principles. Through thoughtful use of ReactJS, I have created an interactive and engaging experience for visitors.
- **NFT Marketplace** (May, 2023 - June, 2023) :- Successfully developed and deployed NFT marketplace smart contracts on the Solana blockchain using Solidity and Hardhat, ensuring secure and efficient transactions for digital assets. Implemented front-end integration with NFT marketplaces, utilizing React.js and Ether.js to provide a seamless and user-friendly experience for buyers and sellers.
- **Crowdfunding Smart Contract** (Dec, 2022 - Jan, 2023) :- Developed a decentralized crowdfunding smart contract on the Ethereum blockchain using Solidity and Truffle, enabling transparent fundraising and automatic release of funds based on predefined conditions. Implemented a user-friendly front-end for the crowdfunding platform using React.js, allowing project creators to launch campaigns, and backers to contribute seamlessly.

CERTIFICATES/ACHIEVEMENTS

- **Certified Blockchain Professional** *June 2023*
EC-Council
 - Demonstrated expertise in blockchain technology fundamentals and applications.
 - Proved proficiency in smart contract development and decentralized applications.
